

We are Africa - Mining, Investing, Changing Lives.

BONDZE PRECIOUS METALS AND MINERAL TRADING FZ-LLC

BUILDING AFRICA'S RESOURCE FUTURE

EXECUTIVE SUMMARY

BONDZE PRECIOUS METALS AND MINERALS FZ-LLC is a UAE based mining and commodities company focused on building a scalable platform across Africa's most resource-rich regions.

The Company's core strategy is to acquire, develop, and operate gold mining assets while integrating downstream trading through Dubai.

BONDZE operates with a disciplined, community-first entry approach securing early-stage access to mining opportunities and transitioning them into structured, licensed operations. The Company is currently advancing its gold project in Sierra Leone while building a broader pipeline across West and Central Africa.

BONDZE's long-term vision is to evolve into a diversified mining and commodities group with exposure to gold, copper, and bauxite, supported by integrated trading and processing capabilities.

VISION, MISSION & VALUES

Vision

To become a leading African-focused mining and commodities group, delivering long-term value through responsible resource development and strategic global trading.

Mission

To identify and develop high-potential mineral assets, operate efficiently and responsibly. Creating sustainable value for Investors, Partners and Host Communities.

Core Values

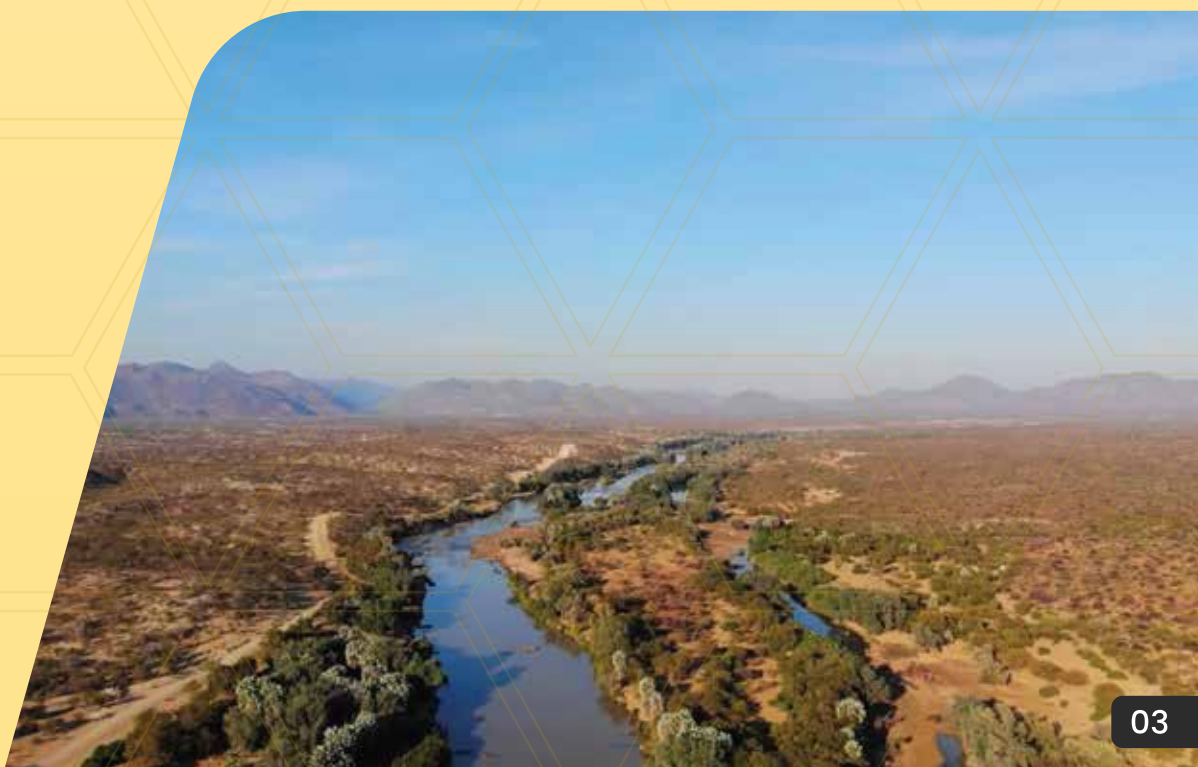

Integrity – Transparent and ethical operations.

Partnership – Strong collaboration with communities and stakeholders.

Discipline – Structured execution and financial prudence.

Sustainability – Responsible environmental and social practices.

Long-Term Value – Building enduring assets and relationships.

OUR BUSINESS MODELS

BONDZE operates an integrated mining and trading model designed to maximize value across the commodity chain.

Core Activities:

- Acquisition of early-stage mining opportunities.
- Development and operation of mining projects.
- Trading of gold and minerals via Dubai and the rest of the world.
- Future expansion into processing and refining.

Revenue Streams:

- Mining production revenues.
- Trading margins from commodity sales.
- Operational efficiencies and scale advantages.

Model Advantage:

By Combining upstream mining with downstream trading, alongside geological explorations of new fields, BONDZE captures multiple layers of value while maintaining control over production flow.

STRATEGIC FOCUS

CURRENT PHASE:

Gold mining (Sierra Leone).
Precious metals and minerals trading between
Africa and International Markets.
Geological Explorations.

EXPANSION PHASE:

Additional mining projects across Africa.
Establishment of multiple SPVs per
jurisdiction.

DIVERSIFICATION PHASE:

Expansion into copper Cathode and bauxite.
Development of processing capabilities
(concentrates / refining).

GEOGRAPHIC FOCUS

BONDZE focuses on high-potential mining jurisdictions in West and Central Africa, including:

- Sierra Leone.
- Democratic Republic of Congo (DRC).
- Cameroon.
- Guinea (pipeline).

Why Africa

- We are Africa and Africa is us.
- Significant untapped mineral resources.
- High availability of early-stage opportunities.
- Strong long-term demand for commodities.
- Opportunity for structured operators to create value.
- Powerfully grounded African ties.

CURRENT PROJECT

Sierra Leone Gold Projects

- **Stage:** Community engagement and early development.
- **Opportunity:** Transition from artisanal mining to structured operations.
- **Strategy:** Secure land access, obtain licenses, deploy semi-mechanized production.

BONDZE is positioning this project as its first operational asset, forming the foundation for future expansion.

EXECUTION STRUCTURE

EXECUTION STRUCTURE FOR AFRICA

COMPETITIVE ADVANTAGE

BONDZE's model provides a strong competitive edge:

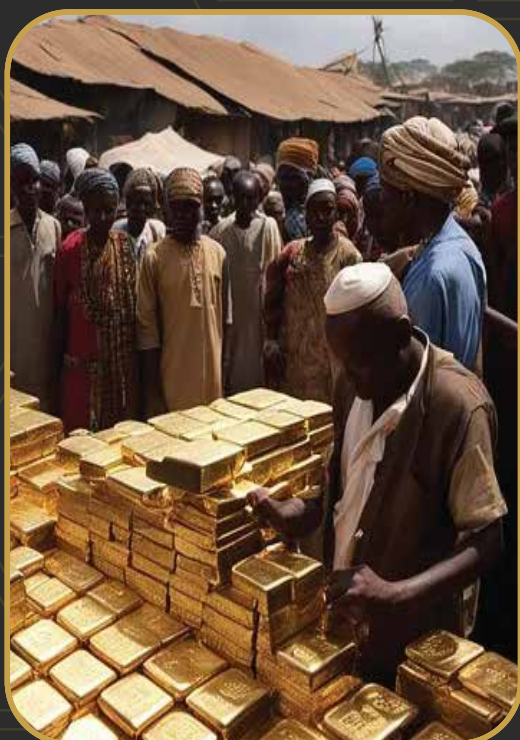

Early Access Strategy – Securing opportunities before formal licensing.

Integrated Model – Mining + Trading under one platform.

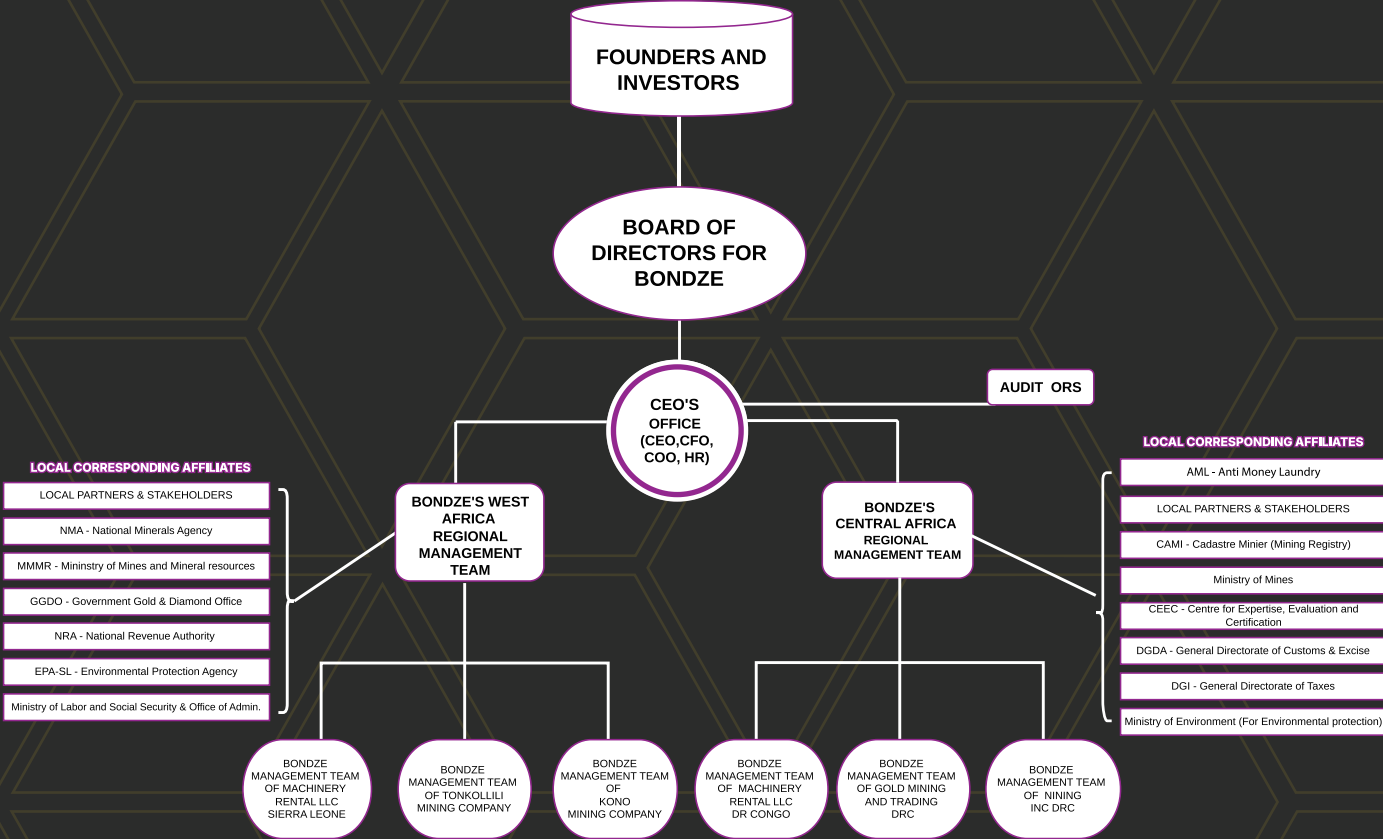

Dubai Base – Access to global commodity markets.

Local Partnerships – Community-first engagement approach.

Scalable Structure – SPV-based expansion across multiple assets.

BONDZE GOVERNANCE STRUCTURE

*"Welcome to investing in Africa through our UAE office.
We are Africa; and Africa is us. - Join us."*

ESG & COMMUNITY COMMITMENT

BONDZE is committed to responsible and sustainable mining practices.

Key Focus Areas:

- Local employment and capacity building.
- Respect for traditional land ownership.
- Environmental awareness and mitigation.
- Community development initiatives such as schools & water locally.

BONDZE's approach ensures long-term operational stability and strong stakeholder relationships.

"Water is life, education is the future"

INVESTMENT HIGHLIGHTS

- Early-stage entry into high-potential mining assets.
- Strong pipeline across Africa.
- Integrated mining and trading model.
- Scalable and repeatable structure.
- Positioned for significant growth over the next 3–5 years.

PARTNERSHIP OPPORTUNITIES

BONDZE welcomes partnerships with:

- Investors and capital providers.
- Local mining license holders.
- Technical and operational experts.
- Equipment and logistics partners.

The Company aims to build long-term, mutually beneficial relationships.

GROWTH ROADMAP (3–5 YEARS)

1st Semester:

- First mine operational (Sierra Leone).
- Trading activity established.

2nd Semester:

- Expansion to additional sites.
- Increased production capacity.

3rd Semester:

- Multi-country operations.
- Entry into copper and bauxite.
- Development of processing capabilities.

MANAGEMENT & LEADERSHIP

BONDZE is led by founders with a strong vision to build a long-term mining and commodities platform across Africa.

Brief Profile:

- Strategic leadership.
- Focus on execution and growth.
- Commitment to building institutional-grade operations.

Advisory & Future Leadership

BONDZE is actively building a network of advisors and professionals across:

- Mining operations.
- Finance and investment.
- Legal and compliance.
- Government relations.
